

New “MVP” Program

- ❖ Effective 2014 Summer
- ❖ Non-Tiered Structure
- ❖ “PA” (% of Points Available) =
(Total Matches Played * Maximum Match Points Available)
- ❖ Maximum Match Points Available is:
 - 3 for 8-Ball
 - 20 for 9-Ball
- ❖ MVP Points =
(Total Match Points Earned) / (PA)

New “MVP” Examples

For 8-Ball:

- ❖ Total Match Points Earned / (Total Matches Played * 3)
- ❖ So if you have played 3 8-ball matches and have a total of 6 match points it would be
 $6 / (3 * 3)$
- ❖ Change this into a percentage and you have 66.6%

For 9-Ball:

- ❖ Total Match Points Earned / (Total Matches Played * 20)
- ❖ So if you have played 3 9-ball matches and have a total of 40 match points it would be
 $40 / (20 * 3)$
- ❖ Change this into a percentage and you have 66.6%
